**Working Prototype Known Problems Report**

Product name: editThis
Team name: The Edit Team
Date: 12/3/17

List of functions not working correctly:

    -Last shade of color picker will not be shown as selected as the other shades

    -If the mouse is clicked down and moved off of the canvas the mouse up event will not register and so will cause unexpected behavior in the action stack which affects drawing  and undo/redo actions.
